ELEMENTARY MAP DATA

1. What does the data tell us?

2015-2016

The percentage of P/D is gradually improving.
A decrease in students scoring Distinguished (At or Above 70th %tile in math and reading)

2. What does the data not tell us?

Elementary: The data doesn't provide enough information regarding RtI nor the implementation of new programs.

BHS: The CERT data does not take into account that the schedule has changed at BHS to provide RtI.

3. What is cause to celebrate?

Elementary: The percentage of P/D is gradually improving.

4. What is the need for improvement?

CERT data indicates that students "On Track for 24 ACT or Better" in grades 9th, 10th, and 11th grades are decreasing in reading, and in grades 10th and 11th in math.

5. What are our next steps?

Elementary:

Continued implementation of new programs and RtI
Curriculum development
Common assessments
Unit planning
District-wide elementary PLCs

BHS:

Adjust schedule to include RtI.
